Summary

The **Limited Liability Partnerships (LLP) Across States Dashboard** provides a comprehensive overview of LLP registrations and business activities across different states in India. It combines key performance indicators (KPIs), interactive charts, and geographical visualizations to analyse LLP status, partner distribution, financial contributions, Registrar of Companies (ROC) performance, and yearly registration trends. The dashboard helps users identify business growth patterns, compare state-wise performance, and support data-driven decision-making. Overall, it serves as an effective business intelligence solution for understanding the LLP ecosystem and identifying opportunities for investment, policy planning, and business expansion.

Dashboard Structure: (LLP Registration Analysis)

1. Dashboard Header

- **Title:** Limited Liability Partnerships Across States Dashboard
 - **Purpose:** Clearly identifies the project and provides the overall business context.
-

2. Key Performance Indicators (KPIs)

- **Total Designated Partners:** 813
 - **Total Partners:** 514
 - **Total Obligation Contribution:** ₹533 Million
 - **Total State Code:** 11K
-

3. LLP Status Analysis

Visualization: Pie Chart

STAGE-4

POWER BI DOCUMENTATION & INSIGHTS PRESENTATION

Purpose:

- Shows the distribution of Active, Inactive, and Not Available LLPs.
 - Helps understand the operational status of LLPs.
-

4. State-wise Business Analysis

Visualization: Pie Chart

Purpose:

- Displays the total number of partners by state.
 - Identifies the states with the highest LLP participation.
-

5. Registrar of Companies (ROC) Analysis

Visualization: Bar Chart

Purpose:

- Compares partner counts across different ROC offices.
 - Highlights regions with the highest registration activity.
-

6. Year-wise Registration Trend

Visualization: Line Chart

Purpose:

- Shows the annual trend of LLP registrations.
 - Helps identify growth patterns over time.
-

7. Investment Analysis

Visualization: Scatter/Line Chart

Purpose:

STAGE-4

POWER BI DOCUMENTATION & INSIGHTS PRESENTATION

- Compares Obligation Contribution with Total Partners.
 - Helps analyse investment levels across states.
-

8. Designated Partners Analysis

Visualization: 100% Stacked Bar Chart

Purpose:

- Compares designated partner distribution across different states.
 - Highlights states with stronger LLP management participation.
-

9. Geographic Analysis

Visualization: Map

Purpose:

- Displays LLP locations across India.
 - Identifies major business hubs and regional distribution.
-

10. LLP Details

Visualizations: LLP Identification Numbers, LLP Names, Company Addresses

Purpose:

- Provides detailed company-level information.
 - Supports verification and detailed analysis of LLP records.
-

KEY INSIGHTS

- Over 70% of LLPs are active, indicating a stable and growing LLP ecosystem in India.
- Maharashtra is the leading state in terms of total partners, making it India's strongest LLP hub.

STAGE-4

POWER BI DOCUMENTATION & INSIGHTS PRESENTATION

- ROC Mumbai handles the highest number of LLP registrations, highlighting the region's high business activity.
- States with more partners generally show higher obligation contributions, indicating greater investment capacity.
- The dashboard identifies regional disparities, helping policymakers promote LLP growth in underrepresented states

BUSINESS RECOMMENDATION FOR DECISION MAKING

- Increase business expansion and marketing efforts in states with consistently high LLP registrations.
- Identify and address barriers that discourage new business registrations
- Provide guidance and support for first-time entrepreneurs.
- Develop specialized financial and advisory services for these sectors.
- Design policies and support programs that encourage successful business partnerships.

BUSINESS INTERPERTATION

- States with a high number of LLP registrations indicate strong business activity and a favourable business environment
- A declining trend may indicate economic challenges or regulatory issues that require further investigation.
- A high percentage of Active LLPs reflects a healthy business ecosystem.
- LLPs with multiple partners suggest greater collaboration and resource sharing.
- Regions with lower registrations may benefit from targeted incentives or regulatory improvements.

FINAL STORY

The interactive features of Power BI allow users to explore the data dynamically by filtering information based on state, year, and LLP status. This makes the dashboard useful for business leaders, investors, researchers, and policymakers who need quick and reliable insights for decision-making.
